

PRODUCT INFORMATION SHEET

METHYLATED SPIRITS

PRODUCT DESCRIPTION

Methylated spirits is a common cleaning component comprising industrial denatured ethanol. It is a clear colourless liquid and is mixable with other hydrocarbon solvents and water. It is used as a common cleaning compound on tiles, glass and ceramics as it reduces bacteria levels and reduces streaking on shiny surfaces. Methylated Spirits is highly flammable and should be handled with caution. The flash point is 12.7°C and has a Specific Gravity of 0.81 so this product should not be used near flames or ignition sources. Methylated Spirits is found in a lot of cleaning products where drying times are critical.

DIRECTIONS FOR USE

Use as required in areas away from heat or ignition sources or dilute into other products to reduce streaking and aid in drying by reducing drying times. On glass and hard surfaces use diluted with small amounts of water with a microfibre or low lint cloth and rub until dry.

FIRST AID & SAFETY

Considered a hazardous product as product is flammable. Avoid contact with skin and eyes. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor.

Refer to Safety Data Sheet for more information.

Class 3 Dangerous Goods

Risk: Flammable

FEATURES & BENEFITS

- Multipurpose product for a range of industries
- Powerful formula
- Active agents

PACK SIZES

1 Litre: NCMS1

20 Litre: NCMS20

4 Litre: NCMS4

200 Litre: NCMS200
